🔗 <https://ronald-portfolio-iota.vercel.app/>

To grow as a Frontend and Mobile Developer by building scalable, applications with React, Next.js, and React Native. I'm eager to keep learning, improve my full-stack skills with Firebase and Node.js, and contribute to innovative teams creating products that make everyday digital experiences better.

📁 PROFESSIONAL EXPERIENCE

10/2022 – Present
lekki,lagos

Junior frontend developer,
Kora Payment infrastructure, <https://www.korahq.com/>
As a Junior Frontend Developer at **Korapay**, I contributed to building responsive, user-friendly interfaces for fintech products that make payments simpler and more accessible. I collaborated with the team to improve UI performance and deliver cleaner, more scalable code. My time at Korapay strengthened my understanding of real-world product development, teamwork, and code best practices.

🎓 EDUCATION

10/2021 – 10/2025
ota, ogun state

Bachelor's Degree Management Information System,
Covenant university, <https://www.covenantuniversity.edu.ng/>

🌐 LANGUAGES

English

chinese
